

Highland 8cm frame screen

Aluminum alloy frame

The Fixed-Frame Highland screen is enclosed in an 8cm attractive plus velvet wrapped lightweight alloy frame.

Excellent picture quality

Suitable for high definition television/movies.

Installation is easy

Special designed slim bracket for an easy click on installation, also available as an in-wall display.

Flexible adjustment

Screen could slide along the brackets to achieve a best view position, also available as an in-wall display.

Specification selection

Vedio, HDTV and 2.35:1 format are available for size up to 200"

Fixed-Frame adjustable tension system

The Fixed-Frame adjustable tension system ensures that the screen is as flat and level as the mirror.

Screen selection

HD Cinema, High Contrast Pur-Mat, HD Rear, Acousion Classic C,
